## Teaching formats of the courses

| Teaching format     | SWS |
|---------------------|-----|
| Lehrvortrag + Übung | 4   |

## Workload

|                      |              |
|----------------------|--------------|
| <b>Number of SWS</b> | 4 SWS        |
| <b>Credits</b>       | 5,00 Credits |
| <b>Contact hours</b> | 48 Hours     |
| <b>Self study</b>    | 102 Hours    |

## Module Examination

|                                                                |                                                                                                                          |
|----------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>Examination prerequisites according to exam regulations</b> | None                                                                                                                     |
| <b>MADS-TPDS - Portfolioprüfung</b>                            | Method of Examination: Portfolioprüfung<br>Weighting: 100%<br>wird angerechnet gem. § 11 Absatz 2 PVO: No<br>Graded: Yes |

## Miscellaneous

|                                  |                                                                                                                                                                                                                                                         |
|----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Recommended Prerequisites</b> | Basic Python programming skills are recommended. Students with little or no Python programming skills are strongly advised to participate at the Pre-Course Programming, taking place in the week prior to the start of the regular programming course. |
|----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
